Assessor Guidance - Discuss placement visits with your student early in their placement to ensure that there is sufficient time for visits to be organised. Ensure that there are agreed learning outcomes for the visits and consider that there are opportunities for your student to work with AHPs in your own clinical area too. Student visits do not have to be full days but do need to be agreed in advance. It is essential that the clinical area has a record of where the student is, when on placement visits.

Student Guidance - The learning opportunities on your placement can be enhanced by experiencing relevant services and departments for the patient care pathway. Placement visits would ideally be undertaken in the latter part of your placement and you must agree all placement visits with your assessor. These visits will be unique to each student and must be aligned with your learning outcomes. However they are not mandatory. Liaise with your Assessor and the Placement Visit area to organise a suitable time and date for your visit. If for any reason you are unable to attend you must inform your ward manager and the placement visit area and let them know.

If you visit an area that you think would be beneficial to other students please tell the Clinical Education Team clinicaleducationteam@iow.nhs.uk
