LEARNER INFORMATION

Work Pattern (Start, finish times)	This can be flexible to the service requirements; however usual working hours are between 9am -5pm Monday – Friday.
Dress Code	IOW NHS Trust dress code policy (see Trust intranet)
Induction/Orientation programme	Organisational induction by CET followed by local induction within clinical area
Staff / rest room facilities	Depending on student's base there may be a rest room available.
Expectations during placement	<p>There is the expectation that the student will contact the lead for the locality to which they have been allocated to identify specific base and mentor/ CPT.</p> <p>There is the expectation that the student will prepare for this placement by identifying to their mentor their desired learning outcomes. Reading the Healthy child Programme will further prepare you for this practice based experience as will being familiar with Childhood Immunisation schedule.</p> <p>Students must at all times behave in a professional manner, ensuring acceptable personal values and attitudes throughout practice. The student must adhere to the NMC code of conduct, promote confidentiality, safe practice and ensure all children and families are treated with respect and dignity.</p> <p>The student will be working with children young people, their families, and the wider multi-agency team to protect and promote their health and wellbeing. Therefore the student should use this opportunity to reflect on experiences in practice to help guide the student in linking theory and practice. This will also help to identify gaps in knowledge and areas which require further research.</p> <p>During the placement the student will also be given the opportunity to attend a number of public health visits with other members of the multi-agency team to enhance their learning experience.</p>

LEARNING OPPORTUNITIES & RESOURCES

Recommended reading/Websites	https://www.gov.uk/.../healthy-child-programme-pregnancy-and-the-first-5-years-of-life www.ihv.org.uk
Common Abbreviations	CPT – community practice teacher. Others will be discussed during the practice placement.
Specific learning opportunities	This will be discussed with your Mentor/ CPT at your initial interview when looking at the students learning needs, alongside the practice induction.
Specific areas of expertise/clinical skills	<p>Being skilled at identifying vulnerable families means the 0-19 service can enable parents to express their needs through a family health needs assessment and decide on the support they receive. The type of support can include:</p> <ul style="list-style-type: none"> referring families to specialists e.g. speech and language, audiology, orthoptist arranging access to support in schools and other groups, such as those provided by Early Help hubs e.g. breastfeeding support group, baby massage, stay & play, counselling organising practical support - for example working with a nursery nurse on the importance of play or providing baby massage to enhance bonding and attachment where there may be concerns regarding maternal mental wellbeing and postnatal depression.

All relevant policies and procedures relevant to the learning environment can be accessed via the Intranet

	<ul style="list-style-type: none"> Provision of support to parents, children and young people in a school setting with the aim of promoting health and wellbeing.
Common Assessments / Interventions/Care pathways	<p>Please see the Healthy Child programme for outline of Universal, Universal plus and Partnership plus assessments and interventions. https://www.gov.uk/.../healthy-child-programme-pregnancy-and-the-first-5-years-of-life</p> <p>The 0-19 service have written an antenatal and postnatal health needs assessment which is embedded in practice together with a full suite of pathways in relation to a variety of areas linked to Health visitors and school nurse roles which are available on the 'K' Drive on the Trust intranet, and will be available in hard copy within a folder - see individual bases for copies of the completed pathways.</p>
Models of practice experience e.g. Hub and Spoke, Care pathways, Patient Journeys	Care pathways, patient feedback via Friends & Family test.

MULTIAGENCY LEARNING OPPORTUNITIES / RESOURCES

Multiprofessional learners accessing the environment	We have a variety of professional s in training who either spend their whole practice placement with the team or those that shadow the health visiting team for public health activities, this includes trainee GP, SCPHN students, midwifery and paediatric nursing students.
Professionals working in the environment	Adult, Mental health, Midwifery and Paediatric trained nurses who have completed the Specialist Community Public Health training to become Public Health Nurses. There are also community Nursery Nurses within the team, as well as administrative support workers.
Opportunities to meet EU directives (Nursing)	Child Health, Public Health Opportunities for insight to EU Directives linked to mental health.
