Learning Environment Mission Statement		<p>We are a multi-skilled team of Theatre Practitioners & support workers whose approach to care is individualised and holistic, promoting each patients right to privacy, dignity and confidentiality at all times. We work as a team and endeavour to uphold high standards of evidence based practice at all times, in accordance with the professional codes of conduct from the NMC and CODP. We recognise that education and lifelong learning has an underpinning role in providing high standards and best practice, and we aim to share, support and encourage learning in a multiprofessional team, sharing time and resources through teaching and mentoring.</p>
