<p>FOI13 437</p>	<p>Data is collected monthly from the Tissue Viability Service from all the adult general wards (excluding Mental Health specialities as this is not comparable to other trusts) and this data has been used to answer this query. This includes pre-existing ulcers that deteriorate and become classified at a higher grade and are thus counted again as well as ulcers that are regraded (i.e. correctly graded) following investigation.</p>

All grades of pressure ulcers are recorded on our incident system for investigation and the data relates to numbers of pressure ulcers, not numbers of patients as a patient at risk is likely to develop pressure ulcers at multiple sites, each of which is recorded as a separate incident. (e.g. both heels, both elbows). It is not possible to retrieve numbers of individuals involved without detailed examination of each incident.

Reconfiguration of wards and community beds over the period in question means that data may not be comparable year on year as more patients are cared for in the community rather than being admitted.

Please note the Isle of Wight NHS Trust came into existence on the 1.4.12 therefore we do not hold information prior to this date. If you require information prior to this, please contact the Department of Health.

FOI13 444	<p>Please provide the following information:</p> <p>I am undertaking a small project looking at certain common ENT surgeries undertaken in the region and assessing how many of each of the procedures are done on an annual basis. The ENT procedures I am specifically looking at are:</p> <p>- pinnaplasty,</p>

- grommets
- adenoidectomy
- tonsillectomy
- septorhinoplasty

For each individual procedure I am looking for the annual total number of patients that have been coded for that procedure and would ideally like the data for the last 15 years.

Could I please have this data from the Isle of Wight NHS Trust?

Response –

The Isle of Wight NHS Trust came into existence on the 1.4.12 therefore information prior to this date is not held. If you require this information please contact the Department of Health.

A search was undertaken for all patients discharged with the relevant codes in any position. Data for 2013/14 is current to 22/11/2013.

FOI13 508	<p>Please provide the following information:</p> <p>Please note the Isle of Wight NHS Trust came into existence on the 1.4.12 therefore we do not hold information prior to this date. If you require information prior to this date please contact the Department of Health.</p> <ol style="list-style-type: none"> 1. I wish to know how many times your ambulance service called a private taxi to take a patient to hospital after the patient called 999 but was 'assessed over the phone' as not having a life threatening condition. Response – Never. We have an underpinning transport system that picks up patients from clinically appropriate calls. 2. I also wish to know the total amount of money paid to private taxi companies for taking patients to hospital throughout 2013. Response – As above, none. <p>Please note that this response does not constitute as consent for direct marketing.</p>
