

Burials at the House of Industry, Newport, Isle of Wight. 1774 – 1930

Introduction:

These records of persons resident at the Isle of Wight 'House of Industry' - Workhouse and who died there and were buried in the adjacent Burial Ground cover the years 1783 and 1784 (January – August) and the years 1813 to 1871 inclusive. They are taken from hand written annual returns by the successive Vicars of St. Mary's Carisbrooke, who had the responsibility for the Workhouse in their Parish and were submitted to the Diocese of Winchester. The original documents are held at the Hampshire County Record Office with copies at the Isle of Wight County Record Office, Newport. The record is incomplete as the submissions made for the years 1774 – 1782, 1785 – 1812, and 1872 – 1930 cannot be located and their whereabouts is not currently known.

There are also accompanying documents at the County Record Office, Newport of baptisms and marriages at the Workhouse. The Record Office also has documents identifying the level of weekly 'Poor Relief' made to individuals, the Admission and Discharge of named persons with some incidental information about them. It also holds minutes of meetings held by the Board of Governors of the 'House of Industry'.

Several books have also been written which reference the Isle of Wight Workhouse and these are also at the County Record Office – in particular 'History of the Isle of Wight Hospitals' by Dr.Laidlaw.

Myra Joan Jones' (Johanna Jones) thesis 'Administration of the Poor Law in the Isle of Wight 1771 – 1836', is held at the Isle of Wight Library HQ, Somerton, Cowes.

1783.
