

Mental Health and Learning Disability Service

**Medicine for Members
12th November 2019**

Developing a partnership

- **Established the service baseline** – a ‘Fact Pack’ was developed with support from Carnell Farrar, building on work done to develop the sustainability plan.
- **Development of a prospectus** – in consultation with potential provider partners and with support from wider system partners. This document defined the requirements of a partnership and set out the short and long term goals, e.g., to improve quality and ensure safety of our services, and longer terms to ensure sustainability of delivering mental health and learning disability services to the population of the Isle of Wight.

Partnership with Solent

- **Initial support to focus on:**
 - CMHT quality improvement programme
 - Development of a dementia outreach programme
 - Review of electronic patient records
 - Resources to support the capacity of the operational and transformation plans

3 month work plan

- **Development of a memorandum of understanding between the two organisations. This will include the following work streams:**
 - Culture and Leadership
 - Quality assurance and compliance
 - Workforce and infrastructure
 - Transformation programme
 - Due diligence and organisational form
